

Client Pricing Guide

Clean, fast websites for local businesses — built in days, not months.

WHAT YOU'RE PAYING FOR

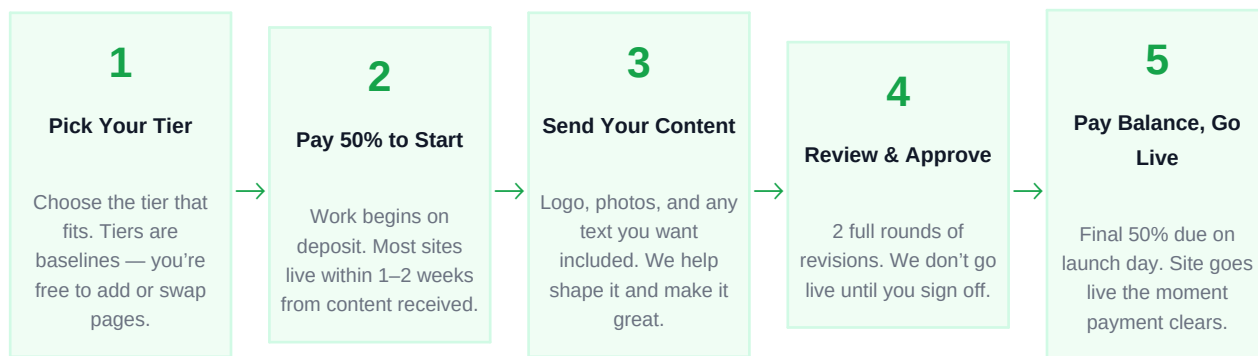

Every site we build is designed and coded from scratch — no drag-and-drop builders, no templates from a library, no recycled layouts. Each page is custom-written, mobile-optimized, and built for speed and search visibility. Here's what's included in every build, regardless of tier:

Custom Design	Your site is built to match your brand — not a template. Colors, layout, fonts, and tone are all tailored to your business and the customers you're trying to reach.
Mobile-First Build	Over 60% of local service searches happen on a phone. Every page is designed to look and work perfectly on mobile before anything else.
Fast Load Times	We use lightweight, hand-coded HTML and CSS — no bloated plugins or page builders. Google rewards fast sites with higher rankings. Slow sites lose customers before the page even loads.
SEO-Ready Structure	Page titles, headings, meta descriptions, and URL structure are all set up correctly from day one. You won't need to hire an SEO consultant just to get found locally.
Copywriting Included	We write the words on your site — not just the layout. You provide the facts; we turn them into clear, professional copy that speaks to your customers and drives action.
2 Rounds of Revisions	Every build includes two full rounds of revisions. We don't go live until you give the sign-off — your satisfaction is part of the deliverable.

35-DAY SATISFACTION GUARANTEE

If your site goes live and you're not satisfied — or it hasn't generated results within **35 days of launch** — we'll refund your full build fee. No hoops. Just a written request within the window and we'll process it within 5 business days.

HOW IT WORKS — FROM SIGN-OFF TO LAUNCH

SITE TIERS — YOUR STARTING POINT

Tiers are baselines, not boxes. The tier you choose sets your page count and starting price. You can add pages, remove them, or mix across tiers. Every tier includes service detail sections — you give us the content, we make it shine.

What is a page? Each distinct URL counts as one page (e.g., Home, Services, About, Contact = 4 pages). More pages = deeper content, better SEO, more room to convert visitors.

TIER 1 Foundation \$1,000	TIER 2 Standard \$1,500	TIER 3 Elevated \$2,000	TIER 4 Premium \$2,500
1 page · Home, Services, Areas We Serve, Contact + Scheduling	Tier 1 + About, Gallery, Reviews, FAQ	Tier 2 + Financing · Specials · Blog (1–7 pages, varies by industry)	Tier 3 + Online Booking + Deep SEO — 8–11 pages
New businesses establishing a clean, professional online presence	Growing businesses that need trust signals and social proof	Full-featured build for established businesses	Full suite for businesses that want to dominate locally

Mix pages from any tier, skip what you don't need, or go fully custom. Custom estimates available — just ask.

WHAT EACH TIER GETS YOU — IN PLAIN TERMS

TIER	PAGES INCLUDED	WHY THIS PRICE
Tier 1 Foundation \$1,000	1 page — Home, Services Overview, Areas We Serve, Contact + Scheduling. Service detail sections built in for every service you offer.	\$1,000 is not a template. Every pixel is designed and coded for your business — your brand, your services, your customers. Includes copywriting, mobile optimization, SEO-ready structure, and full hosting setup. That's the price.
Tier 2 Standard \$1,500	Everything in Tier 1, plus About, Gallery, Reviews, and FAQ sections.	The extra \$500 adds four high-converting sections. An About page increases contact rates — people want to know who they're letting in. Gallery and Reviews give visitors the proof they need. FAQ cuts down on repetitive calls. Each section takes real design and writing time.
Tier 3 Elevated \$2,000	1–7 pages — Everything in Tier 2, plus Financing Page, Specials Page, and Blog. Exact configuration varies by industry.	At this level you're building a complete online business presence. Financing pages remove the biggest objection before a customer calls. A blog and specials page give you a place to run offers and publish content without rebuilding the site. This is the tier most established service businesses end up wanting.
Tier 4 Premium \$2,500	8–11 pages — Everything in Tier 3, plus Online Booking System and Deep SEO Architecture across every page.	\$2,500 reflects the full scope: a booking system requires integration and multi-device testing; 8–11 pages means 8–11 individually designed, written, and optimized pages. Deep SEO architecture means every page is built to rank. This tier is for businesses that want to dominate their local market.

MONTHLY PLANS — KEEPING YOUR SITE RUNNING

Once your site is live, the **Maintenance Plan is required** to keep it online — it covers hosting, SSL, uptime monitoring, and content updates. The **Growth Plan is completely optional** and is for businesses that want active Google presence management, review monitoring, and ongoing SEO. You can start on Maintenance and upgrade to Growth at any time.

MAINTENANCE PLAN — REQUIRED

TIER	MONTHLY RATE	WHAT'S INCLUDED
T1 Foundation	\$125/mo	Netlify hosting on a global CDN, SSL certificate (HTTPS), uptime monitoring with alerts, all security and platform updates, minor content edits on request (up to 1 hr/month), and a monthly uptime report sent to you.
T2 Standard	\$150/mo	Everything above. Slightly more surface area to maintain and monitor each month.
T3 Elevated	\$175/mo	Everything above. More pages means more content to update, more links to verify, and a larger site to keep optimized.
T4 Premium	\$200/mo	Everything above. 8–11 pages plus booking integration and deep SEO architecture require the most ongoing attention to keep performing.

Why the rate varies by tier: More pages means more to monitor, maintain, and update. The rate reflects actual time spent, not a flat fee charged regardless of work. Most clients choose this plan. Less than a tank of gas per month.

GROWTH PLAN — OPTIONAL UPGRADE

Not required — add this if you want active Google presence management, review monitoring, keyword tracking, and ongoing SEO work. Start on Maintenance and upgrade whenever you're ready. Cancel anytime with 30 days notice.

TIER	MONTHLY RATE	WHAT'S INCLUDED
T1 Foundation	\$275/mo	Everything in Maintenance, plus 1–3 Google Business Profile posts per month, responses to all new Google reviews, monthly SEO refresh (meta titles and descriptions updated), and a monthly keyword ranking report.
T2 Standard	\$300/mo	Everything in T1 Growth. Additional SEO surface area across added pages.
T3 Elevated	\$350/mo	Everything above, plus proactive review generation strategy, page copy optimization, and quarterly competitor keyword gap analysis.
T4 Premium	\$425/mo	Everything above across all 8–11 pages. Maximum SEO investment for businesses that want to dominate local search.

Why it costs more: Real, ongoing work each month — writing posts, monitoring rankings, responding to reviews, and making data-driven adjustments. Not automated. A real person working on your Google presence every month.

LOCAL PRESENCE ADD-ON — NEXTDOOR MANAGEMENT

PRICE	WHAT'S INCLUDED
\$49/mo + \$99 setup (any tier)	\$99 Setup: We create and fully configure your Nextdoor Business page. Monthly: One neighborhood post per month, monitoring for neighbor recommendations and service requests, responding to messages in your area. Why Nextdoor matters: Most homeowners don't Google for a plumber or roofer — they ask their neighbors. Nextdoor is where those conversations happen. Flat rate — same price regardless of tier.

If you cancel your monthly plan, your site will go offline. A \$250 migration fee applies if you'd like the site files transferred to a new host.

ADD-ON SERVICES — OPTIONAL EXTRAS

Nothing below is bundled in unless you choose it. Available with any tier.

How our SEO options differ: **Local SEO Setup (\$250)** is a one-time foundation — GBP, schema, citations, keyword doc. Done once at launch, no ongoing fees. **Growth Plan (\$275–\$425/mo)** is ongoing — monthly posts, review responses, rank tracking, and active optimization. Think of Local SEO Setup as planting the seed; the Growth Plan is watering it every month.

ADD-ON	PRICE	WHAT YOU GET
Logo & Brand Identity	\$300 – \$600	A professionally designed logo and full brand kit — color palette, fonts, and logo files in all formats (PNG, SVG, PDF). Simple wordmark is \$300; custom icon-based logo with full brand guidelines is \$600. Delivered before launch so everything matches.
Local SEO Setup	\$250 one-time	One-time foundation. Google Business Profile setup and optimization, schema markup (tells Google your exact business type and location), citation submissions to Yelp, BBB, and Apple Maps, plus a keyword research doc for your top 5 search terms. No monthly fees — the fastest way to start showing up locally from day one.
Booking / Scheduling Integration	\$300 – \$500	Connects an online booking tool (Calendly, Square Appointments, or Acuity) to your site so customers can schedule without calling. You set your availability — customers book themselves and you get a notification. Price reflects integration complexity.
Paid Ads Setup (Google & Meta)	\$400 setup + 10–15%/mo of ad spend	We build and manage paid campaigns on Google Search and/or Facebook/Instagram targeting customers in your service area. You control the budget — we write the ads, build the campaigns, and optimize monthly. Setup covers architecture and copy; monthly % covers ongoing management and reporting.
Domain Registration & Setup	\$50 – \$75	We purchase the domain and handle full DNS setup — no GoDaddy account needed. Alternatively, buy your own domain (\$12–\$15/yr) and we connect it at no charge. The \$50–\$75 is for the purchase-and-setup service only.
Rush Delivery	+25% of build fee	Moves your project to the front of the queue — completed in under 2 weeks. Standard turnaround is already 1–2 weeks; rush reserves dedicated focus time and may require evening or weekend work to hit your deadline.

GOOD TO KNOW

Revisions	2 full rounds included. One consolidated list of changes per round — not individual requests spread over days. Additional rounds are \$75/hour.
Content Deadline	Logo, photos, and copy due within 14 days of signing. After that, a \$200 delay fee applies and your timeline shifts accordingly.
Ownership	Your text, photos, and copy are yours. The underlying code belongs to Groundwork Studio until the build fee is paid in full. Cancel your monthly plan and a \$250 migration fee applies to transfer files to a new host.
Custom Quotes	Tiers are starting points. Mix pages from any tier, skip what you don't need, or go fully custom. Contact us for an exact quote.
